

RECOMMENDED BARREL LENGTHS

If your barrel is not listed here, please ask. The measurement needs to be taken from the breech face (usually there is a gas escape hole nearby) to the end of the muzzle.

7.62x54R	18 - 20"	Frequently Asked Questions Q. What if my barrel is shorter than the recommended length? A. This is no problem at all. Q. Do I have to shorten my barrel? A. No, this is entirely your choice Q. What will happen if I do not shorten my barrel? A. No problem other than the forward weight of the weapon does increase and this can make it more tiring to carry and a little more difficult to carry on a sling Q. I have a front sight, does it have to be removed? A. Yes
